

Pete,

A magnificent photo!

Don't know why the 467th BG is mentioned.

The two planes are;

H-15 FO 42-52650 CANCER 8 486 834 2S B

J-1 FO 42-50561 name, if any, unknown 8 486 833 4N K

42-52650 was later assigned to 406th BS (Night Leaflet) and salvaged after crashing on 3 Jan 45 in an orchard near College Road, Buckland, Aston Clinton, Bucks.

42-50561 was later modified to become a Carpetbagger and assigned to 8 492 859 RCL: M and transferred to 856 RCL: I. There is no trace of it after a 12 May 45 operation.

Tom.

Got the one in the foreground, what about the background one.

Those are two BIG bombs and is that AZON smoke of the rear one?

PJ
